

# Ángel Sánchez Guerrero

Barcelona, Spain | hello@angeloyo.com | angeloyo.com | github.com/angeloyo | linkedin.com/in/angeloyo/

## Experience

---

**Software Engineer, Integrations & Automation, REVER (YC S22) – Onsite (Barcelona, Spain)** Oct 2025 – Present

- Own logistics integrations and automation for REVER's returns platform, used by 400+ active clients and processing 80,000+ monthly returns across 100+ countries.
- Ship refactors and features across the stack, from React frontend to Go/Temporal backend workflows on AWS, reducing infrastructure costs and improving reliability.

**Founder, TikTok-Driven Ecommerce Stores – Remote** Apr 2024 – Feb 2025

- Launched two Shopify print-on-demand stores and grew them to €20k+ revenue and 50M+ organic TikTok views.
- Built ViralStud.io, a content automation tool that generated TikTok video/slideshow variations from reusable sections and published them automatically, driving 5M+ additional organic views (Next.js, FFmpeg, Redis queues, Supabase, R2).

## Projects

---

**Koda** 2026

- Building a WhatsApp-native AI companion with a Python/FastAPI backend, debounced conversational pipeline, tool-calling agent loop, hybrid memory search, voice/image inputs, and background reflection jobs.

**PaywallHub** 2022

- Built a web utility and Chrome extension for removing paywalls, ads, and popups, reaching 1M+ unique visitors and 30K+ installs through organic search.

## Education

---

**University of Granada – BSc in Computer Engineering** 2021 – 2025

- Specialization in Computing and Intelligent Systems (AI).
- Thesis: Built an open-source MIMIC-IV clinical data dashboard with interactive visualizations, patient-level views, and natural-language querying (Next.js, FastAPI, MongoDB, FastMCP).
- Won a €3,000 university open-source grant to build a professor/course review platform.

**Sapienza Università di Roma – Erasmus Exchange** 2023 – 2024

- Relevant coursework: Computer Vision, Machine Learning, Multimodal Interaction.

## Skills

---

**Technical:** Go, Python, TypeScript, SQL, React, Next.js, FastAPI, PostgreSQL, MongoDB, Supabase, Docker, AWS, Temporal, MCP, LLM APIs.

**Languages:** Spanish native, English C1 (Cambridge Advanced).
